

RAFTER TAILS:

HB Elements premium PVC rafter tails are made with a patented fabrication system, which gives great design flexibility as well as excellent durability.

Our hollow core rafter tails are easily cut to size if necessary. Installation using the included cleat and adhesive leaves very little prep work to ready for paint.

HB's rafter tail design library has hundreds of standard but original profiles to choose from. Can be installed over stucco, wood, cement fiber, and most commonly cellular PVC soffits.
